I have been a Councillor for Brixton Parish for 2 years. I wanted to be part of the future and help and get involved and try and bring the parish closer with social networking and take the stuffiness out of it. It was a 'them and us' system before. I enjoy seeing things get done, done just manyana. Offering fresh ideas with a smile and connecting that gap between parishioners and the council and making meetings more enjoyable. I am on the Traffic committee, social networking and ideas and piercing the pre-occupied mind. Qualities I bring to the Council are fun, extrovert, anything is possible, down to earth, very approachable (especially up the Foxhounds.) new fresh approach and ideas always POSITIVE. I love the contact with all in the parish and I can always see its true potential. I don't like 'No' for an answer, "shoot for the moon" as they say. I want to make Brixton Parish the finest place to live for all ages. My family have lived in the parish for over 30 years and operated a very successful business to this day. I want all the off spring to be able to stay and live in the area and bring up the next generation but also ensure that we take care of all those mature residents who need help and company.
