Dear Sir/Madam

Temporary Traffic Regulation Order (TTRO) for Road Closures

We are writing on behalf of Devon County Council to notify you of planned road closures which will enable the highway improvement works in relation to Sherford Main Street to be carried out.

In the interests of safety for residents, the travelling public and the workers on site and to reconstruct parts of the existing highways, two road closures are required. Several temporary diversion routes will be in place during periods of road closures.

The proposed works will see sections of "Sherford Main Street" connected into the existing road network in and around the area of the closures. Upon completion of the works a small section of the new highway will be open to public traffic although work on the remainder of the scheme will continue until Summer-2020.

Please see the enclosed plans which shows the proposed closures and the intended closure dates. The works are weather dependent and therefore the programme is subject to change. In the event of a change to the programme, we will aim to inform the public, neighbouring properties and businesses as early as possible.

Advanced notification signs confirming the precise dates of each closure will be erected on site at least fourteen days prior to it coming into force. Please refer to the website <https://one.network/tm> for up to date information in relation to the planned roadworks.

Access to all properties within the road closures will be maintained, as well as access for emergency services. The site team will be in contact with residents and businesses who are directly affected by the closures to discuss continuity of access.

We apologise for the inconvenience and thank you for your patience.
