Guest Speakers:

Tom French, SHDC Planning Specialist Officer, Urban Fringe Delivery Team re Planning Application for the use of portacabins as a temporary community hub on land adjacent to Sherford Vale School, Sherford New Community, Hercules Road, PL8 2DP

This proposed new temporary building will be sited adjacent to the existing school, and used for a variety of purposes including temporary place of worship, youth facility, community facility and base for Community Trust. It is a portacabin, with a large meeting area, meeting rooms and storage facilities with toilet facilities. Pedestrian access will be from the school square. The S106 requires that this facility will remain until the permanent community building is built. The Consortium is required to maintain it until the permanent one is in place. Concerns were expressed about number of parking spaces and the availability of sufficient storage for all the different community groups.
Comments from parishioners and Cllrs. included; there will be no parking available on Hercules Way when it is adopted as an urban clearway. Parking capacity is already a problem on Sherford with side streets already full with residents parking, limited parking for the community park, Skate Park and now no additional parking for this community building. Additional parking is needed for the community building.
BPC will discuss a recommendation in agenda point 27.

Nick Leaney, Director Aardvark regarding Steer Point Quarry Restoration

The original consent for 4 years was secured in January 2015. The work did not start until the Environmental Permit was granted in April 2019. Have now only had 1 year of the 4 year consent to do any work, and way behind in the restoration programme. Aardvark has applied for exactly the same scheme that was initially requested for a 4 year programme – 4 years from 9th May 2019 meaning that works will run until 8th May 2023. Environment Agency has confirmed the permit will stay in place. Traffic movements will not change to those originally agreed in this application, there will still be no movements during school drop off and pick up times (as per original traffic plan). Aardvark is in regular contact for a monthly report to BPC and responds promptly to any problems. Lorries should be covered and the wheel wash is in place. Cllr Hitchins confirmed that 3 objections are on the DCC site.
Cllr Williams expressed her thanks for all drivers to conforming to the speed limits and being responsible throughout the village.

Cllrs Wills, Hitchins, Williams and Clerk attended a virtual Sherford Liaison meeting on 15th June. Sherford Community Land Trust is being asked by developers to take over the lease for the new community building. Issues in Sherford at present are funding, financing and billing between developers having failed to invoice residents with their management fees. There are also serious problems with bin storage and communal areas. PCC Waste Management is managing waste for the whole of Sherford currently; in time this will pass to South Hams.
Dawes Lane update, Cllr Churchill PCC will be obtaining an update, in particular looking at sources of funding to front load until S106 becomes available. Cllr Parish has received an email from Sir Gary Streeter MP, with information from Chief Exec of PCC, stating that this is locked into S106 1200 house being occupied, £55k allocated for design work towards £260 - £400k spend.
Cllr Hitchins will ensure that this is raised again at the next Sherford Liaison meeting as the design of this path could commence in advance of the funding.
Concerns about restrictive covenants on some houses by the builders Cllr Hitchins follow this up with a Sherford representative.
Health provision - the CCG doesn't see the need at present for a medical provision. Cllr Williams proposed that Cllr Hitchins writes to the CCG to object to their lack of decision at this stage, this is putting pressure on the facilities used by Brixton parishioners; seconded by Cllr Arran.
